## I. OBJECTIVES OF THE KNOWLEDGE EXHIBITION

The Agenda 2063 Knowledge Exhibition for South-South and Triangular Cooperation provides a unique platform for African youth, including Africans in the Diaspora, to share their local/regional initiatives in support of the implementation of Agenda 2063: The Africa We Want, and Agenda 2030 for Sustainable Development.

Following its success during the second edition in Kampala in January 2023, the APRM African exhibition will be organised this year on the margins of the Third Africa High-Level Forum on South-South and Triangular Cooperation for Sustainable Development in Free Town, Sierra Leone, from 7 to 9 May 2025.

South-South and Triangular cooperation becomes an imperative mechanism for sustainable development and human capacity building amongst countries of the Global South (Africa, Latin America, and Asia). The rise of new economic powers and emerging donors, i.e. China, UAE, Saudi Arabia and southern development banks, i.e. Islamic Development Bank and New Development Bank, has emphasised resilience and solidarity amongst countries of the Global South, particularly in response to shocks and disasters such as the COVID-19 pandemic.

The APRM exhibition, in this context, offers a continental space for African countries and development partners to share recent collaborative initiatives for promoting sustainable development at

local and continental levels. The exhibition also encourages young entrepreneurs, including youth and women, to showcase their local initiatives in pursuit of Agenda 2063 and pertinent sustainable development goals (SDGs).
